中文摘要

根本建構主義與建構實在論都屬於建構論，兩者都在找尋一條有別於傳統實在論的進路，其理論背景與知識觀點都有許多共通之處，在哲學、心理學、數學與模控學等領域有其各自的應用與實踐。

本文意圖梳理根本建構主義與建構實在論之間對形上學「實在」的立場與知識論觀點，對照兩者的實在觀路線，並探究由各自不同的實在觀所衍生出不同的知識論與方法論的策略，藉以達致「相應的理解」，兩者之間差異又互補的比較，是一種參照、對應，也應是一種外推與科技整合

關鍵字：根本建構主義、建構實在論、實在論

The deontology and reconstruction of metaphysic reality:
compare radical constructivism with constructive realism

Ming-Che Tsai

ABSTRACT

Both radical constructivism and constructive realism are the constructivisms. They sought the path together which different from the traditional realism, but had common theoretic background and epistemological views. Each of them did things in the philosophy, psychology, mathematics and cybernetics.

This paper tries to compare radical constructivism with constructive realism in the position of metaphysical reality. Explores their different perspectives of epistemology and methodology. Intend to reach the relevant understanding.

Keywords: radical constructivism, constructive realism, realism
