

Introduction to Chaoyang University of Technology

CYUT Facts

	Campus	Area: 27 hectares with more than 12 buildings Student Housing: 2 Halls of Residence providing residences for about 1,641 students
	students	Master's degree programs: 1,290 Undergraduate programs: 12,112
	Staff	204
	Faculty	Full Professors: 23 Associate Professors: 113 Assistant Professors: 100 Lecturers: 116
	Alumni	15,276
	International Links	29 university-wide formal linkages or exchange agreements with institutions in 8 countries

CHAOYANG UNIVERSITY OF TECHNOLOGY

Address : Chaoyang University of Technology
168 Gifeng E. Rd. Wufeng, Taichung County 413, Taiwan, R.O.C

TEL: 886-4-23323000 FAX: 886-4-23329898 <http://www.cyut.edu.tw>

History

Chaoyang University of Technology was founded in 1994 through the generosity of Dr. Tien-sheng Yang, president of the Ever Fortune Group, a major R.O.C. conglomerate, in memory of his parents, and in return for the support he received throughout the years from the people and communities of central Taiwan. In 1988 he chose a site in Taichung County's Wufeng Township, and after six years of preparation, on April 14, 1994, it received permission from the Ministry of Education to begin accepting students as "Chaoyang Institute of Technology." The school takes its name from a passage in the Chinese classical work "The Book of Changes," a phrase which captures the school's vigorous growth and its students' active commitment to learning.

In its first year, Chaoyang had eight departments and over 900 students. Due to its commitment to quality in education and outstanding achievements, on August 1, 1997, Chaoyang was designated by the Ministry of Education as a University of Technology, the highest level in the R.O.C.'s polytechnic educational system. This designation, coming only three years after Chaoyang opened its doors, set a record in the R.O.C.'s educational history, which remains unbroken. In addition to its new designation, Chaoyang has continued to expand, and today boasts four colleges, nine graduate schools, and nineteen departments, as well as its Evening Division, General Education Center, Center for Teacher Education, Continuing Education Center, Office of Research and Development, The Business Incubation Center, and affiliated kindergarten. Faculty and staff now number 556 and student enrollment is 13,402.

The School Code

- Diligence: earnest study in pursuit of the truth
- Betterment: self-cultivation to add strength of character
- Practice: self-discipline in service to the public

Education Goals

Chaoyang was founded based on the following goals:

- That it should respect academic freedom, uphold the dignity of education , and

foster an ethical, democratic learning environment;

- That it should develop skilled professionals with high standards of ethics and character, to meet the needs of society;
- That it should put into practice the school motto of "Diligence, Betterment, and Practice";
- That it should emphasize practical teaching and research, in order to fulfill the goals of polytechnic education;
- That it should promote exchange and cooperation between industry, government, and academia, and raise the standards and quality of industry;
- That it should base itself in Taiwan, Surpass Asia, and challenge the world, always seeking excellence.

School Values

In its policies and administration, the University upholds the following values and requires the following programs:

- It values professional knowledge, a global perspective, communication and cooperation, and the ability to make timely use of all relevant information;
- It emphasizes proper conduct, professional ethics, good judgment, and a responsible attitude;
- It requires all students to complete a labor education program in order to develop a balanced physical and mental work ethic;
- It instills self-discipline and self-respect in its students, and cultivates their ability to live and study as independent individuals;
- It emphasizes academic exchange in order to combine local and international strengths and raise academic standards;
- It will establish technical research and development centers, and provide service to industry through technical cooperation.

A Message from the President

Chaoyang University of Technology upholds its unique management style values. Also, in order to challenge the rapid changing environments and continue to grow, Chaoyang needs to take on the fundamental principles, including double As, double Bs, and double Cs:

Here, double As stand for advance and advantage. That is to concretely upgrade all levels of standards of the entire University, and to shape its unique value. As for double Bs, they are for business-minded and best-effort, to carry out the daily operations of Chaoyang focusing on the need of customers and society. Hence, all members of Chaoyang must try their best to achieve the target. Finally, double Cs are for cooperation and companion. The key of success relies on the high spirit of teamwork. A full collaboration and mutual support through participation are indeed vital. Our students are expected to have capability in hands, expertise in bones, responsibility on shoulders, respect in mien, love in heart, and smiles on face. Moreover, we value giving ourselves to Taiwan, transcending Asia, and challenging the world. This is the vision of our faculty and students.

Colleges

- The College of Management
- The College of Science and Engineering
- The College of Design
- The College of Humanities and Social Sciences

The College of Management

Six Departments:

- Finance
- Business Administration
- Information Management
- Insurance
- Accounting
- Leisure, Recreation , and Tourism Management

Five Graduate Institutes:

- Finance
- Business Administration
- Information Management
- Insurance
- Accounting
- Recreation, Leisure, and Tourism Management

The College of Science and Engineering

Five Departments:

- Construction Engineering
- Industrial Engineering and Management

- ▶ Applied Chemistry
- ▶ Environmental Engineering and Management
- ▶ Information and Communication Engineering

Five Graduate Institutes:

- ▶ Construction Engineering
- ▶ Industrial Engineering and Management
- ▶ Applied Chemistry
- ▶ Environmental Engineering and Management
- ▶ Information and Communication Engineering
- ▶ Networking and Communication Engineering
- ▶ Biotechnology

The College of Design

Four Departments:

- ▶ Architecture
- ▶ Visual Communication Design
- ▶ Industrial Design
- ▶ Urban Planning and Landscape Architecture

One Graduate Institute:

- ▶ Design
- ▶ Architecture and Urban Design

The College of Humanities and Social Sciences

Four Departments:

- ▶ Communication Arts
- ▶ Applied Foreign Languages
- ▶ Social Work
- ▶ Early Childhood Development and Education

Two Graduate Institute:

- ▶ Applied Foreign Languages
- ▶ Early Childhood Development and Education

One Center

- ▶ The Center for Teacher Education
