

There are many hundreds of books, articles, and other media presentations on MI theory. Neither I nor anyone else is able to keep up with them. Here I list those of my own writings about MI, which are not already listed in the Reference section of this book. I also include a small, highly selected set of writings and materials by other individuals. At <http://www.howardgardner.com> I keep a complete, up-to-date list of all materials about MI theory that come to my attention.
